Advent Calendar

Let your kiddos color or paint their calendar heading as they'd like.
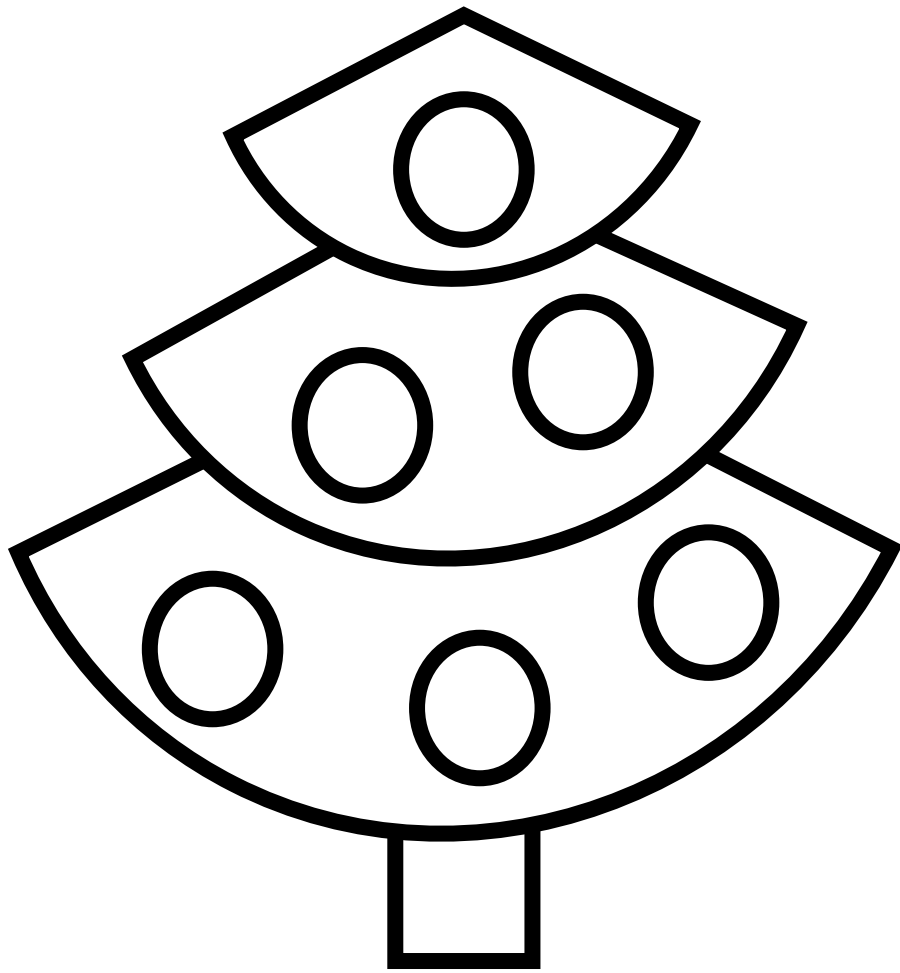

- There are two per page for the heading if you want to one for each child, or a one page heading.
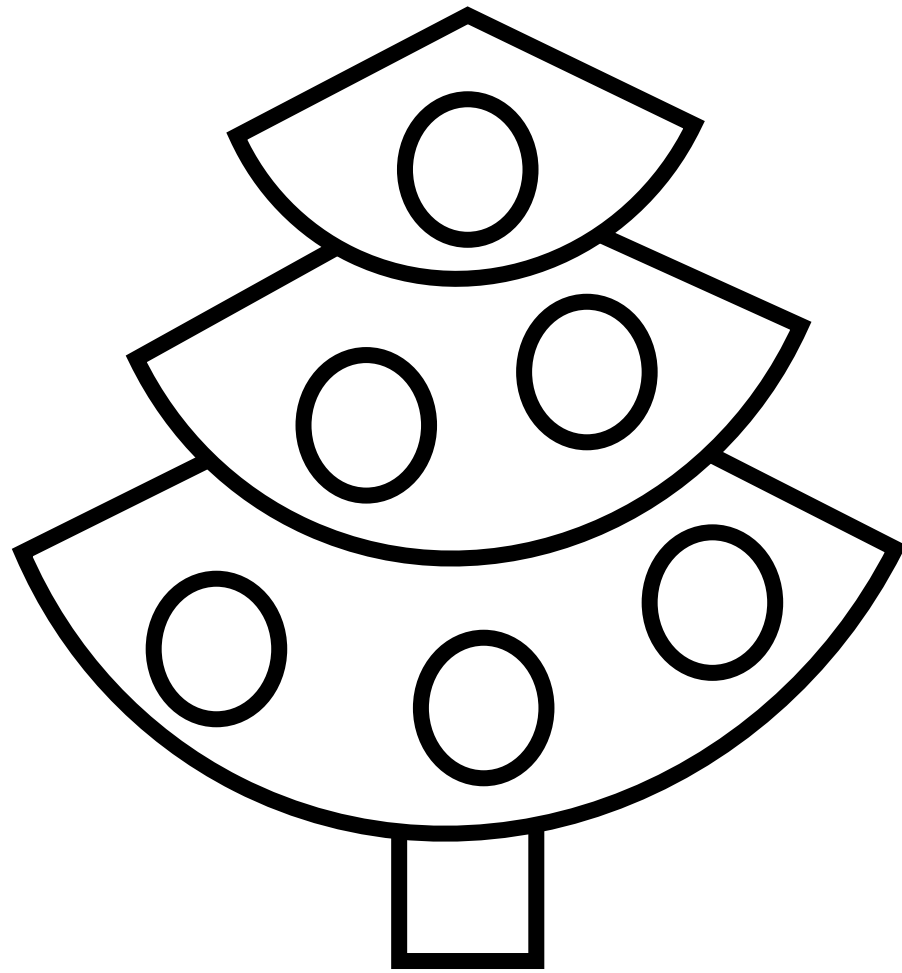

Print the chains and cut them.

- Chains are made with even and odd numbers so you can print on color paper to create a pattern if you'd like.

Staple or glue chains together to create the advent Calendar.

- Be sure to cut the slit in the header to allow a space for the first chain.
